Subject: Tire Crumb processing facilities contact list
Attachments: DRAFT potential manufacturing sites for sampling 6.3.16.xlsx

Hi Nicole,

This is the sampling sites list and email I was going to send Jackie, let me know if it looks good.

Hi Jackie,

Please find attached our list of potential crumb rubber manufacturing sites to sample.

From the call with FieldTurf, Darren made the comment that the only cryogenic processing facilities were the [REDACTED] and the [REDACTED]. So if we still wanted to get [REDACTED] Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]] [REDACTED] we'd want the [REDACTED] Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]] (after we confirm with our POC at [REDACTED] if this is indeed the case) and the [REDACTED].

Also, has there been any updates on whether the labs can use the crumb rubber samples we collected at the [REDACTED] facilities? If so, then we could potentially use the [REDACTED] Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]] to avoid being duplicative.
